

hello

I needed to talk about my favourite subject.  
My favourite ~~my~~ subject is physics because it is new  
and we have a good teacher and it has a lot of ~~own~~ numbers  
and I am good with number it is also a lot about  
practical it also has a lot of project every lesson  
you learn something new that is also nice  
the teacher ~~is~~ also makes sometimes jokes and  
he can explain very good the thing I like the most  
about physics is that you always see ~~it~~ it in everyday  
live I don't really know anything more that I can  
~~to~~ tell about it

I'm curious about what you like. I think spanish  
you can email me if you want my email = Quint-v@  
outlook.com

Oh I forgot we have physics 3 times a week  
~~on~~ on Monday, Thursday and ~~friday~~ Friday

Dear Luna,

In this letter I'm going to write about my favourite subjects. Honestly, I don't know what subject I wrote in my first letter, so this letter will probably tell you something else ☺.

At the moment my favourite subject is maths, not because I like maths itself, but because of the lesson. We have a really nice teacher, Ms. Does. She can explain very well. Furthermore I like the lesson because we can work the whole lesson on our homework, so I don't have to do as much at home. On Monday our teacher explains some theory. On Wednesday and Thursday we work in groups, they are classified by different levels, which depends on how good you are at maths. By doing this we are in a group with classmates of different levels, so they can help you if the teacher isn't available.

Every chapter in our maths book, is divided into six paragraphs, every lesson we have one paragraph as homework. After each chapter, we need to do a little test, which counts once, so the teacher can see if you understand the theory. After we've done some more chapters, we need to do a test again, but then it counts twice. For me, maths is not as difficult. My average grade is a 7.7, where I'm really happy with.

Another subject I also really like, is Biology, because I'm really interested in it. But the lessons itself aren't that interesting, most of the time we just have to copy some notes from the whiteboard, but I like the practical things more. For example, once, we needed to cut open a pig's heart and point out some things we had to learn, which was quite interesting. But we don't do a lot of practicals, so the lessons itself are quite boring.

I'm really looking forward to see you, can't wait!  
Best regards,

Janou  
♥

I don't know if you have got an Instagram account, but this is mine  
So maybe we can chat  
@janou\_niessen

Dear Anna

In this letter i'm going to tell you something about my favorite subject at school. My favorite subject is Math. i really like it because it is nice to solve questions. My math teacher is Mrs. Does, she is really kind and very good in explaining things. I have three times a week math lessons: on Monday the 7<sup>th</sup> hour, Wednesday the 5<sup>th</sup> hour and Thursday the 6<sup>th</sup> hour. On Monday we always sit like the normal places so the teacher can give an instruction about the chapter we are working on and about our homework for the whole week. On Wednesday and Thursday we have to sit in special groups which are made by our teacher and based on your grades. In those lessons we work on our homework for the next lesson and you are able to ask questions if you don't understand something, but you have to ask first the people in your group for help and if they can't you then you can ask the teacher. We mostly first have a so on a chapter before we have a test, so you can practice and see what you still don't understand. I'm curious what your favorite subject is!

Maybe we can have more contact if you want to. this is my number : +376 46 55 47 73 and this is my Instagram name : emily-roox

Hello Amir,

I like learning languages. That is why my favourite subjects are French and Latin. For a long time I actually had no favourite subject, but when I have to choose, I would say those two.

### Latin

I have every week two lessons of Latin. Each of them are 50 minutes. The first one is on Monday: (the third lesson of that day) The other lesson is on Thursday (the second lesson of that day)

The teacher is funny in his own way 😊.

What we normally do in these lessons are:

- \* Reading Latin stories and translating them.
- \* Talking about Latin poems and trying to translate them.
- \* The teacher tells us funny stories about his time in America. He is Dutch, but he lived quite some time in the USA. His name is Jan-Piet Knijf.

### French

I also have to two French lessons per week. These lessons take place on Wednesday (the fourth lesson of that day) and on Thursday (the fifth lesson of that day) These lessons also have a duration of 50 minutes. The name of our French teacher is Samira Ben Brahim. She is a native speaker.

Some things we do during these lessons:

- \* Doing exercises
- \* Watching little films to improve our listening skills.
- \* Grammar

I normally start school at 08:30 AM and finish at 15:10 PM. It can defer a bit if lessons don't go ahead. That means I can start my school-

Hey!

Pen Pal Letter 3

Favorite Subject

This letter is ~~supposed to be about~~ <sup>about</sup> my favorite subject. Well, school is boring, but if i need to choose 1 subject then i choose for gym (P.E) because we always do sports or different kinds of exercises.

And if i need to choose a subject in which you need to learn stuff i would choose biology because its very interesting. But i dont get really good grades for it >:(. I also have a subject that i dont like at all: Geography. Its just so boring. :z:

And one other thing

Whats your insta, so we can chat easilier.

because sending letters is pretty annoying.

my insta is: jada.sykes xx

add me if you have insta :).

XOXO Jada

Bio

Hey Lona! 

I already told you something about my school, now it is time to tell you something about my favourite subjects. 

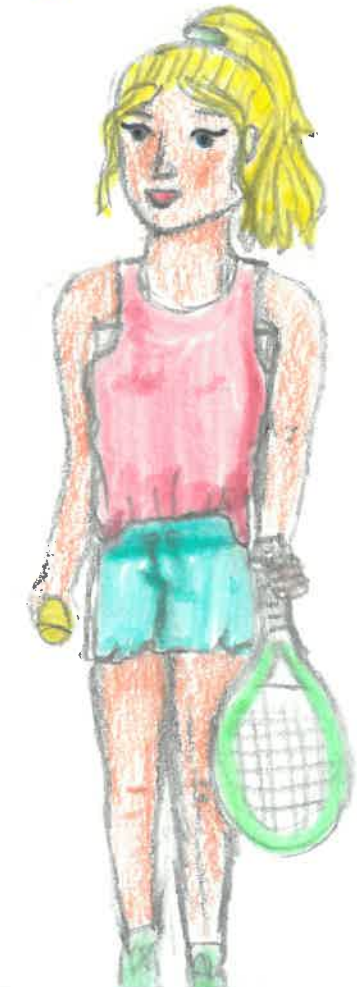

My favourite subjects are drawing and P.E. I like P.E. because you can be active instead of sitting the whole day. I also play tennis and really like other sports like hockey, volleyball or softball. We don't have P.E. that much, only 2 hours a week. We now still have P.E. inside but after a few weeks we'll go outside to the field. 

I also like drawing a lot. We only have it once a week? The lessons are kind of short to do a lot but I still like the subject a lot.

I also like to draw a lot at home.

Do you like to draw? Or do you like P.E.?

Julie 

P.S. maybe if you have instagram or snapchat you can follow me.

Hello Endimo,

This letter is about my favourite subject. My favourite subject is sports. I really like this subject because I like being active. In winter the lessons are inside but in summer the lessons are outside. In summer we play softball and football a lot. Inside we play hockey or basketball. Sometimes we play games like dodgeball. The thing I like the least is gymnastics luckily we don't do that a lot. Outside we also play handball. I really like that. Inside we can also put on music. I also like music class because we can play on keyboards and when we are finished with our assignments we can also play other instruments. I play the guitar and I really like that. I play the guitar since January and it goes quite well. With music I only don't like the homework assignments because sometimes those are really difficult. These two subjects are my favourite subjects. I like sports the most. I hope you know some more about me.

see you  
Sil.

Hey, Amelie

this letter is about my favorite subject, my favorite subjects are physical education and Maths. it depends on what we are doing. in physical education I like the ball sports. I most like basketball, dodgeball and volleyball. in math I most like formulas especially to solve them. there are things I don't like in these two subjects for example drawing graphs.

Bo Peeters

\* The first pin is the logo of the Dutch Royal family. It's orange because that's the colour of the Netherlands. It is a crown because we have a monarchy.

\* These are little flags in the colour of the Dutch national flag. (red, white, blue). Orange is also the colour of the Netherlands because our football players wear orange during their games.

\* The last pin is a bike which is typical Dutch because Dutch people cycle a lot. After China we have the most bikes in the world.

\* The first pin is the national flag of the Netherlands.

\* The second pin is a tulip, these are very common flowers in the Netherlands

\* The third pin is a windmill. In the past these were used to grind grain to produce flour. Only a few windmills keep doing this.
