

Hello, Esther,

How are you? I'm fine.

Changing the subject, my favourite subject is Arts, I like it because I love painting and drawing, we don't have exams and we can be creative (and it is great :)).

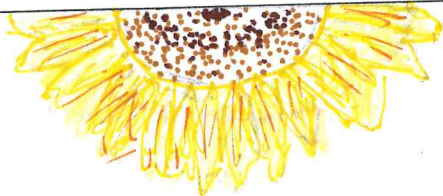

By the way, I finished an exam yesterday. Well, I pass maths!!!

One positive fact about Art is that isn't boring because you can use your imagination. This year, we don't have Arts and it is very sad because most of the subjects are boring. We have Technology instead of Arts, this is horrible because, in my opinion, Technology is the worst subject after maths (obviously).

What is your favourite subject?

My best wishes. ✨❤❤

Julia.
