

Hey,

I've told you something about myself, now it is time to tell something about my school. Our school is called BC Broekhin.

It is about 30 minutes cycling away from my house.

Everybody goes by bike, even if it rains. If it rains and you arrive at school you are completely wet. You put your coat in your locker (mine is the one at the bottom row 😊) and when your lessons are finished and you can go home, your coat is still wet.

We normally start at 8.30 a.m. which is really early, we can go home at 15.10 p.m. So I am home around 4 o'clock. We have a lot of lessons, but the ones I enjoy the most are P.E. and the drawing lessons.

Probably most of ~~our~~ subjects are the same, like History and biology. Except for these lessons we have Dutch, German and French. Because we are 110 students (which means you get taught in another language instead of Dutch) we get taught in English. So most of the teachers speak English.

The teachers you are probably gonna meet are:

Mrs. Does, she is very kind. She will go with us to Poland.

Mrs. Beckers, she is very kind but her explanations are very long, she is also going to Poland with us.

Mrs. Maassen, She is very boring and takes everything too serious

Mrs. Vermeulen, She can be funny but if she gets angry

you don't want to be in her way

Mr. Verstappen, he is okay.

Mr. Diebels, he is very kind. Once he gave us apple pie ☺

Enough about school, we already talk enough about it.

Greetings from the Netherlands

Julie
