

Dear Anna

Hope you enjoyed my first letter. In this second letter I am going to tell you something about my school, the name of my school is Bisschoppelijk college Braekhin Roermond, located in the city of Roermond. This is about twelve kilometres from my home. Everyday I have to cycle for about 45 minutes to get to school. Happily, one of my best friends, Janou, also lives in Reuver so we can cycle together to school. On my school are about 1500 children. The school has two buildings, a small building where you attend classes for the first two years. From the third year onwards, you have to go to the bigger building. Sometimes we do have classes in the bigger building. Both buildings are connected with a corridor. Our school also has several outdoor sport courts where we practice gym every summer. My school subjects are: Mathematics, biology, geography, history, physics, drawing, handcraft, music, gym and (foreign) languages German, French, English and Dutch. Every lesson takes about 50 minutes and we have 28 lessons in a week. Per day I spend about 2 hours on homework. Looking forward to meet you soon!

Greetings Emily
