

Hi Michelle,

My school is a public school in Luarca and I'm in the 2nd year of compulsory secondary education.

My school has compulsory secondary education, vocational training and A levels: you can study humanities and social studies, arts or science.

As for the subjects, this year, I have physics and chemistry, geography and history, English, Spanish language and literature, mathematics, music, technology, French, physical education and ethical values.

We have a half an hour break and we normally have something to eat. We can bring food from home or we can buy it at one of the stores near the school because we don't have a cafeteria. How is your school? Do you have a cafeteria?

Cheers!

Sara
