

(Paulina)

Hello, I'm Alejandro!

My favourite subjects are: chemistry, technology and P.E. I like chemistry and technology because I think they are interesting and useful, the teachers are great and they explain very good.

And I like P.E because I practice football concepts and I'm good at football and I like basket and table tennis. I have every subject twice a week.

My favourite teachers are: Susi and Loreto.

Sometimes I see Susi playing football and he is like my friend.

And Loreto is my neighbour and she is very kind with me.
