

Stephanie

Hello!

I studied at "IES Carmen y Severo Ochoa"
Here we are already 300 students. I am at "3^oeso"
I have 30 lessons a week (6 ~~was~~ for day) I start at
half past 8 and I finish at half past 2. I have
11 subjects: biology (2 hours), physics and chemistry (2
hours), geography (4 hours), PE (2 hours), maths (4 hours)
English (4 hours), Spanish (4 hours), ethical values (1 hour)
art (2 hours), technology (2 hours), French (2 hours and
an optional extra lesson on Mondays), tutorial (1 hour).
My favourite subjects are biology and P.E. I think
that the most difficult subject is maths because
this year it's becoming more complicated. The
extracurricular activities are: an exchange program with
French students, the "Week Camp", the "White Week"
(skiing activities) and the "Erasmus programme" with
Germany, the Netherlands and Poland. In the break
(quarter past 11 to quarter to 12) I buy a sandwich and
I am with my friends.

The place I like the
most is the gym, because
here I do interesting
things.

Bye bye!
